This Document has been reviewed and approved for continued use by the Owner and confirmed by the ISMS Team. The version History is recorded in the ISMS Audit Schedule Document available from the ISMS Manager.

Accessibility statement for FMIS Asset Management Platform

This accessibility statement applies to the FMIS Asset Management Platform at <https://cloud.fmis.co.uk>. This website is run by Financial and Management Information Systems Ltd. We want as many people as possible to be able to use this website. For example, that means you should be able to:

- 🔊 change colours, contrast levels and fonts
- 🔊 zoom in up to 300% without the text spilling off the screen
- 🔊 navigate most of the website using just a keyboard
- 🔊 navigate most of the website using speech recognition software
- 🔊 listen to most of the website using a screen reader (including the most recent versions of JAWS, NVDA and VoiceOver)

We've also made the website text as simple as possible to understand.

[AbilityNet](#) has advice on making your device easier to use if you have a disability.

How accessible this website is

We know some parts of this website are not fully accessible:

- 🔊 some areas of the website may not be accessible to users of Dragon NaturallySpeaking (speech recognition software)

Feedback and contact information

If you find any problems not listed on this page or think we are not meeting accessibility requirements, contact the FMIS Accessibility Lead:

- 🔊 email support@fmis.co.uk
- 🔊 call +44 (0) 1227 773003

We will consider your request and aim to respond within five working days.

Technical information about this website's accessibility

Compliance status

This website is compliant with the [Web Content Accessibility Guidelines version 2.2](#) AA standard.

Non-accessible content

The content listed below is non-accessible for the following reasons.

It is not possible to upload files using the upload button on the 'View/Maintain Assets - Attachments - Upload New Attachment' page using standard Dragon commands. Manual controls, like using MouseGrid, may be required to interact with upload elements. This is a known issue of speech recognition software, such as Dragon NaturallySpeaking, and cannot be fixed.

What we're doing to improve accessibility

We review the accessibility of the FMIS Asset Management Platform at least annually as part of our Information Security Management System. The ISMS Team also considers relevant legislative changes, updates to the Web Content Accessibility Guidelines and recognised industry good practice, with additional reviews undertaken where material changes require them.

Preparation of this accessibility statement

This statement was prepared on 9 June 2026. It was last reviewed on 15 June 2026.

This website was last tested on 8 June 2026. The test was carried out by Zoonou.

Zoonou used [WCAG-EM](#) to define the pages tested and test approach.
